FUNCTIONAL MEDICINE & NUTRITION PROGRAM

Welcome to Triad Health Center! We are excited to begin helping you further on your journey through natural healthcare.

Inside of this packet, you will find: instructions to prepare for your initial consultation and assessment with Dr. Schwartz, an outline of expectations, and a detailed intake paperwork questionnaire.

Prior to your consultation…

You will need to fill out the intake paperwork forms completely and as detailed as possible. You must complete the paperwork and either bring with you to your appointment or email it back to us **at least 2 hours prior to your appointment: staff@triadhealthcenter.com**. If you have any labs you think are relevant from the past 2 years, please bring copies of your test results with you.

What will occur?

Be sure to arrive at least 15 minutes early for your appointment to allow time for parking, check-in, and to complete any additional paperwork upon arrival.

At your first appointment you will meet with Dr. Schwartz for an in-depth health history exam working through your intake paperwork, any past labs, and discussion of your needs and health goals.

You will also be given a few preliminary non-invasive exams that will help determine if you are in a state of inflammation, including:

- Body Composition Analysis
- Visual Contrast Sensitivity Test
- Orthostatic Blood Pressure Assessment
- In-depth Proprietary Analysis of your NeuroToxic Questionnaire

The length of the entire first appointment is typically 90-120 minutes.

Following your initial consultation, Dr. Schwartz will recommend any additional testing and customize a plan for you to get well! Future costs will depend on each individual's needs.

What do I need to bring?

This packet of paperwork fully completed. If you wear glasses or contacts at all, make sure you have them with you. Copies of any labs, imaging, or treatment plans from the past two years. A notebook and pen. And we highly encourage your spouse attend this appointment with you.

What is the policy on rescheduling this appointment?

If you are more than 15 minutes late for your appointment or your paperwork is not completed or with you, the appointment is considered cancelled. You may reschedule this appointment up to 24 hours in advance. Outside of a catastrophic occurrence, you will be charged for any less-than-24 hour cancelations, late arrivals, or no-shows (see our Patient Policies on Page 4).

EXPECTATIONS

"You didn't get sick over night. Do not expect to get better over night."

The majority of patients who enter our office have been developing their illness for 20-30+ years. The process of getting well is much like the stock market; you will have good days and bad days. However, as you look back on your care you will realize you have always been progressing. I have been treating very sick people, including myself, for many years and I have never seen or experienced a progression to health in any other way.

My point is you are going to have bad days, and that does not mean you are regressing. You will also have good days, and those good days do not mean that you are cured.

True healing takes time. You can cover symptoms in hours or days, but to remove a cause you will need to be patient and committed to the process. I can tell you from personal experience as it took 3-4 years to regain my complete health. With that said, after 6 months of treating the cause I was able to see the light at the end of the tunnel. My hope had returned. The same can be for you.

What You Can Expect From Us:

1. **Our commitment** to get to the true cause of your illness.

2. **Our support**, as we are here to offer you not just hope but a path to follow.

3. **Encouragement** based on our experience of treating very sick patients and going from pain to purpose in our own health battles.

4. **Value,** we understand that the majority of our patients have financial burdens many of which occur because of their illness. Therefore, we created a health investment discount package to make it more affordable (based on the minimal amount of visits, testing and fees). We obviously have to charge for our services, as we are a business, but by no means over charge in regards to today's medical fees. It is our goal to restore your health and life.

What NOT To Expect From Us:

1. **Do not expect a "get fixed quick scheme"** or a **"magic bullet"**. Most illnesses do not occur overnight and true healing takes time.

2. **Do not expect to be coddled** - we are going to be tough because we have to be! We will not necessarily tell you what you want to hear but we will tell you what you need to hear to regain your health and life. Most of the patients that we treat are in the death zone. We have found the only way to pull them out of the death zone is to not coddle but to speak truth into their lives.

What We Expect From You:

1. **Commitment to lifestyle changes.** It's not easy, but when getting to the cause, lifestyle changes such as diet, exercise, toxin avoidance, and attitude are a must in order to return back to a state of health.

2. **Commitment to the protocols** that we outline for your case. It is the individuals that stick closely to the protocols and that remain diligent that get the most consistent results.

3. **Patience**. REMEMBER you didn't get sick over night and you will not get better overnight.

We are excited to help you reach your optimal health potential!

Dr. David Schwartz, DC, MS-HNFM, D.PSc

Nutritional Informed Consent

According to the Federal Food, Drug and Cosmetic Act, as amended, Section 201 (g) (1), the term "*Drug*" is defined to mean: "*Articles intended for use in the Diagnosis, Cure, Mitigation, Treatment or Prevention of disease.*"

A vitamin is not a drug, NEITHER is a Mineral, Trace Element, Amino Acid, Herb, or Homeopathic Remedy.

Although a Vitamin, a Mineral, Trace Element, Amino Acid, or Herb may have an effect on any disease process or symptoms, this does not mean that it can be misrepresented, or be classified as a Drug by anyone. Therefore, please be advised that any suggested nutritional advice or dietary advice is not intended as any primary treatment and / or therapy for any disease or particular bodily symptom.

Nutritional counseling, vitamin recommendations, nutritional advice, and the adjunctive schedule of nutrition is provided solely to upgrade the quality of foods in the patient's diet in order to supply good nutrition supporting the physiological and bio-mechanical processes of the human body.

Use of nutritional supplements may be safely recommended for patients already using pharmaceutical medications (Drugs), but some potentially harmful interactions may occur. For this reason, it is important to keep all of your healthcare providers fully informed about all medications and nutritional supplements, herbs, or hormones you may be taking.

I have read and understand the above information:

Sale of Nutritional Supplements at Triad Health Center, PLLC

You are under no obligation to purchase nutritional supplements at our clinic. As a service to you, we make nutritional supplements available in our office. We purchase these products only from manufacturers who have gained our confidence through considerable research and experience. We determine quality by considering: (1) the quality of science behind the product; (2) the quality of the ingredients themselves; (3) the quality of the manufacturing process; and (4) the synergism among product components. The brands of supplements that we carry in our facility are those that meet our high standards and tend to produce predictable results.

While these supplements may come at a higher financial cost than those found on the shelves of pharmacies or big box stores, the value must also include assurance of their purity, quality, bioavailability (ability to be properly absorbed and utilized by the body), and effectiveness. The chief reason we make these products available is to ensure quality. You are not guaranteed the same level of quality when you purchase your supplements from the general marketplace. We are not suggesting that such products have no value; however, given the lack of stringent testing requirements for dietary supplements, product quality varies widely.

As always, if you have questions or concerns, please discuss them with our staff.

Patient Policy Form

Welcome to Triad Health Center! We are excited to provide you with your health care needs and are honored to work with you to achieve your optimal health goals.

Please review our office policies. Initial each line item to indicate your understanding, then sign and date the bottom of this form as acknowledgement of our patient policies outlined below.

_____ **PAYMENT POLICY** Payment for all services and products is due at the time of the visit. As the patient, you are responsible for the total charges incurred for each visit. We accept Visa, MasterCard, Discover and American Express credit cards and debit cards for payment, as well as HRA, FSA, HSA and Christian Health Share.

We do not directly bill these services to health insurance. If you are seeking a method of reimbursement, you may request an itemized super bill receipt following each payment, and a super bill will be supplied by email within 72 business hours of receiving your request.

We may recommend natural and alternative supplements, which may be purchased from Triad Health Center. Most insurance companies do not cover the supplemental items that we recommend and sell. FSA, HRA, and HSA may or may not cover the supplemental items that we recommend and sell, and it is your (the client's) responsibility to research coverage and communicate with the FSA / HRA / HSA company regarding coverage.

_____ **SUPPORT POLICY** Any additional questions outside of scheduled consultations, including phone calls or emails from Dr. Schwartz or his support staff, are an extra charge, based in 15-minute increments at $60.

_____ **ARRIVAL POLICY** For all appointments, be sure to arrive and be ready at least 15 minutes early. Early arrival allows for a relaxed and unhurried experience, and ensures time to take care of any paperwork prior to appointment time. If late arrival is inevitable, your appointment may need to be shortened in order for the practitioner to stay on schedule. The original reservation fee will be charged.

_____ **LATE ARRIVAL POLICY** We regret that late arrivals will not receive extension of scheduled appointments. The original reservation fee will be charged.

_____ **RESCHEDULE & CANCELLATION POLICY** We require at least 24 hours notice if you need to reschedule or cancel an appointment. If a client fails to cancel within 24 hours, they will be asked to pay in full the amount of this missed appointment, and use it as a pre-payment for future services. An additional late/missed appointment charge of $75 will be assessed. **Cancellation and reschedule requests must be received via phone or email: 336-288-4677 or staff@triadhealthcenter.com.**

_____ **NO SHOW POLICY** Clients who fail to show for appointments will be asked to pre-pay for future services and an additional missed appointment charge of $75 will be assessed.

_____ **CONFIDENTIALITY POLICY** The discussions between the practitioner and the client is confidential and is protected by state laws and the Health Insurance Portability and Accountability Act (HIPAA).

_____ **BREAK IN CARE POLICY** Clients who we have not been seen at Triad Health Center for Functional Medicine services for a year or more will be asked to fill out this form again.

_____ **TERMINATION OF LONGTERM PROGRAM POLICY** If treatment is terminated prior to completing a long-term program option, financial responsibility to the patient is assessed at a per visit fee.

_____ **COMMUNICATION POLICY** I give permission for the staff at Triad Health Center to contact me via telephone, text or email and to leave me messages that may contain appointment or medical information if I am not available.

I have read and understand the above stated policies and will comply with them in all aspects.
